CLAIM AMENDMENTS

1.	(Cancelled)
2.	(Currently Amended) The front fork for a motorcycle according to claim 1A front fork for
a moto	orcycle, comprising:
	a slide pipe slidably provided within a cylinder tube; and
	a working fluid chamber provided within the cylinder tube and the slide pipe, wherein
	upper and lower guide bushes coated with a polytetrafluoroethylene and an oil seal
sealing	the fluid chamber disposed in an inner periphery of the cylinder tube so as to be in slide
contac	t with an outer peripheral surface of the slide pipe, and
	an amorphous hard carbon film disposed on the outer peripheral surface of the slide
<u>pipe</u> ,	
	wherein grooves having a fine depth and holding the working fluid are formed on a
surface of the amorphous hard carbon film.	
3.	(Previously Presented) The front fork for a motorcycle according to claim 2, wherein the
grooves have a depth between 0.09 and 0.2 μm .	
4-20.	(Cancelled)
	·
21.	(Cancelled
22.	(Previously Presented) The front fork for a motorcycle according to claim 3, wherein
groove	es having a fine depth and holding the working fluid are formed in a net shape on a
surface of the amorphous hard carbon film.	

24. (Cancelled)

the grooves have a depth between 0.09 and 0.2 μm .

23.

25. (Previsouly Presented) The front fork for a motorcycle according to claim 2, wherein an average roughness of the amorphous hard carbon film surface formed on the outer peripheral surface of the slide pipe is Ra = 7.3 Å.

(Previously Presented) The front fork for a motorcycle according to claim 22, wherein
